OBJECTIVE

Computer Science Engineering student with experience in 5+ freelance full-stack projects using the MERN stack, specializing in building and deploying scalable web applications. Proficient in Java and Data Structures & Algorithms

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, TypeScript

Frontend : React.js, HTML, CSS, Tailwind CSS

Backend/APIs : Node.js, Express.js, RESTful APIs, Authentication, Role-Based Access

Databases : MongoDB, MySQL, Firebase

Cloud/Tools : AWS (EC2, S3 Fundamentals), VS Code, Git, GitHub, Vercel, Postman

CS Fundamentals : Data Structures & Algorithms, OOP, DBMS

EDUCATION

Chitkara University, Himachal Pradesh

B.E. in Computer Science and Engineering (2023 – 2027)

WORK EXPERIENCE (FREELANCING)

Livique - E-commerce Website | *React.js, Node.js, Express.js, MongoDB, JWT, Razorpay*

[Live Link](#)

- Designed and built a full-stack e-commerce platform for end-to-end shopping workflows.
- Developed RESTful APIs with JWT authentication and role-based access control.
- Integrated product flows, cart, Razorpay payments, and Cloudinary for media management.
- Optimized backend performance using efficient database queries and caching.
- Developed an admin panel to manage products, revenue, users, and live chat support.

Blueberry Fields School - School Website | *React.js, Node.js, Express.js, MongoDB*

[Live Link](#)

- Designed and deployed a school information portal for students, parents, and staff.
- Enabled parent interaction through admissions, reviews, and feedback workflows.
- Integrated contact and feedback forms with automated data capture and validation.
- Integrated Google Maps API to enhance location accessibility and navigation.
- Delivered a responsive, mobile-first UI for seamless cross-device experience.
- Developed an admin panel to manage content, photos, admissions, feedback, and queries.

PROJECTS

QuickBites- Home Made Food Delivery | *React.js, Node.js, Express.js, MongoDB, Razorpay*

- Developed a responsive web app for buying and selling homemade food with live delivery tracking.
- Implemented user dashboards, listings, cart, checkout, and online payment gateway (Razorpay).
- Developed REST APIs with JWT authentication and bcrypt hashing.
- Integrated Cloudinary & Google Cloud Vision to moderate uploads, reducing invalid files by 90%.
- Designed backend workflows for scalable order processing, reliability, and data consistency.

ACHIEVEMENTS

- Hack-o-Octo 2025 (Microsoft) – Shortlisted in Top 30 at a national-level hackathon.
- HackIndia Hackathon (2024, 2025) – Built a full-stack web application.
